

Cyberplagiarism

**The ruse of new era or the same
problem in fancy packaging?**

by Jennifer Sharkey

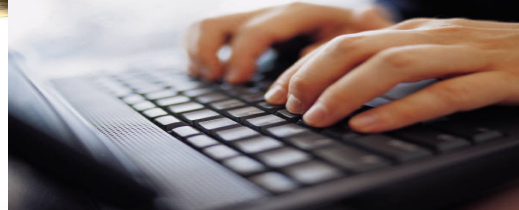

2006 BCCE Conference - Purdue University

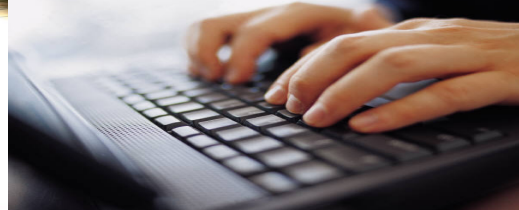

What is cyberplagiarism?

- goes by many names
- copying and pasting text
- downloading audio/visual files
- taking photos & scanning
- copying code (e.g. HTML, C++, java)

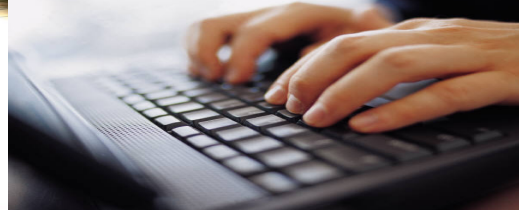

Are more students cheating?

- few recent surveys and studies
- heavy reliance on self-reporting
- little breakdown between types
- attitude, stress, and opportunity

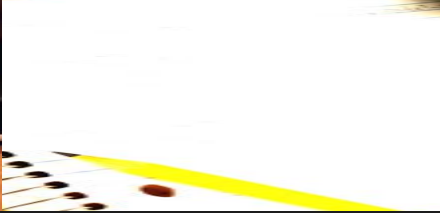

Using technology to detect

- fee-based services
- free services

Deterring

- use web-based guides to learn more
- educate your students
- create assignments that require students to create their own content
- use your local librarians
