C. Discussion of items from Long Range Planning Meeting

1. The Future of CINF

- relook at SP
- outreach to COMP? how do we approach them? Do we want to partner?
- broader analysis of where we are?
- what is the nature of the challenge?
- what are we offering, providing members?
- publications, but open to all?

- a lot depends on attending national meetings, increasingly problematic for people and budgets
- perhaps refocus on programming one national meeting and complement with local events and virtual programming
- in midst of perfect storm trial (economy, shift of profession, hard to get enough effort for programming and electing officials), need to figure out how to handle
- member input
- how to help more people attending meetings
- small group to investigate

ACTION ITEM: Andrea will assemble group: Bonnie, Rajarshi, Leah, Guenter, Graham

- list of issues and possible actions
- possible connection with COMP
- broad view of what are issues and how we might want to approach
- useful to gather information on how to do virtual opportunities, do at div level
- identify questions to ask ACS
- consider survey to ask
- can't see CINF directory unless opted into ACS directory, 130 on ACS Network CINF group

2. CINF Happy Hour Event

ACTION ITEM: Raj will follow up with Conn area COMP group on having CINF join on upcoming event

- initially CINF contributes \$500 to match COMP contribution: PR, snacks, cash bar
- PR: outreach to university depts, librarians, local section

ACTION ITEM: Greg will look at CINF membership roster, plot density by state & county to guide where to do

- cooperate with local sections in higher population areas, used to be info interest groups in Philadelphia and Delaware, died out (not lack of interest, but too busy and companies downsizing)

3. ACS Network to store CINF Executive Committee Documents

- post with year, committee, tags from previously used
- Full CINF group is open to the world, might help visibility, use for marketing
- we will post annual reports and treasurer report (public info) on both CINF website and full CINF ACS Network group (open to world)

ACTION ITEM: Carmen will set up CINF Functionaries private group for all committee members

D. Other:

CIC-CINF collaboration with instruction repository up and running, CIC would like to continue collaboration on new project along cheminformatics/bioinformatics, no topic determined yet, send Guenter ideas.

- approved, Andrea moved, Carmen seconded
- Sunday workshop at this meeting: Research in Germany Initiative and German Research Foundation, Rachelle is attending

ACTION ITEM: Guenter will explore with CIC, and lead grant-writing initiative

II. Committee Reports

A. Communications & Publications Committee (Bill Town)

1. Conversion of the Chemical Information Bulletin (CIB) website to Drupal
Congratulations were offered to Danielle Dennie on the conversion of the Chemical Information Bulletin (CIB) website to Drupal. All present at the meeting agreed that the last CIB issue looked really good. The next step is to convert the remainder of the CINF website to Drupal using the same contractor (supervised by Danielle) as before. This work is now under way.

2. New CIB content

The editor added agendas of the committee meetings to be held at Denver to the CIB edition before the meeting. In the future she will continue to include "feature" articles and will be adding new columns, such as a "CINF Reviews" that will contain highlights from the chemical information literature, and perhaps she will include Database reviews similar to the book review section. Song Yu agreed to look after the CINF Reviews section.

3. ACS Network

The group looked at the CINF information that is currently available on the ACS Network. The Chemical Information Group set up by Sue Cardinal has a mix of annual reports, CIB's, financial reports etc and it was determined that this "group" is totally open and accessible by anyone in the world. After some discussion, it was agreed that this high level group would be used for outreach to members and to promote CINF to non-members. Documents, such as annual reports, would be posted in that section, but also posted to the CINF website.

Carmen Nitsche has already created a group for the CINF Executive Committee on the ACS Network and will create one for CINF Functionaries. Both groups will be private. It was agreed that we would not create a secret group. It was also agreed that we would recommend that each CINF Committee establish their own groups on the ACS Network and that the ACS Network will ultimately be the focal point for all CINF communication.

4. Duplication of content on the CINF website

It was agreed that the CIB will be the entry point for all the material that it usually contains (meeting information, abstracts, etc.) and this material will not be duplicated elsewhere on the website. When someone wants to access that information directly from the CINF website tabs, the information will be accessed via links to the CIB.

5. CIB editors for 2012 and beyond

Judith Currano agreed to serve as Editor for the pre-meeting CIB issues in 2012 and Svetlana Korolev agreed to serve as Editor for the post-meeting CIB issues.

6. Communications and Publications Committee membership

All current Communications and Publications Committee members agreed to remain on the committee with the exception of Rick Williams whose term has expired. Bonnie Lawlor will serve as the Committee's liaison to the CINF Membership Committee.

7. Communications and Publications Committee Chair for 2012

Bill Town will remain as Chair for 2012. If he is unable to travel to any ACS meeting in 2012, an "Acting Chair" will be appointed to run the meeting and report to the Executive Committee.

8. Increasing usage of the CINF website

The Committee will look into the possibility of using Twitter and Facebook as tools to "push" information to CINF members and to engage younger participants.

B. Awards (Phil McHale)

1. Herman Skolnik Award

- a. 2011 Award –presented to Sandy Lawson in Denver. Sandy working with Rachelle Bienstock on an interesting full day symposium with an excellent roster of speakers.
- b. 2012 Award – awardee not yet contacted.
- c. The composition of the Skolnik Award Jury was confirmed as Award Chair, Award Chair Elect, CINF Division Chair, and CINF Division Chair Elect. The Skolnik Award jury has reviewed the nominations for the 2012 award and decided on the recipient, to be announced after the 2011 award is presented.

4. Scholarships
 - a. FIZ CHEMIE Fall 2010 – three awards were made.
 - b. Spring 2011 – Accelrys sponsored two scholarships. Five applications were received and the long abstracts were assessed. The winners selected were Kayala (UC Irvine), Johnson (UCLA). All applicants were at the poster session.
 - c. Fall 2011 – FIZ CHEMIE is sponsoring three scholarships. Three viable applications were received.
 - d. Spring 2012 – Accelrys will sponsor two scholarships, and a call for applications has gone out, including to universities in the San Diego area.
5. CINF Lifetime Award

There are no nominees at present.
6. CINF Best Presentation Award

The Committee had decided push the award out to Spring, 2012 in San Diego, where the theme is "Chemistry of Life". This will allow us to be more proactive and to better publicize the award, so that we can fulfill the initial aims for which the award was created. We have received the session topics from the Program Chair and will review these during the Denver meeting.
7. 2010-2011 Budget – this was reviewed with the Treasurer and is reflected in the CINF Budget.
8. CINF Procedures
 - a. The CINF Procedures Manual has been updated to reflect current Awards Committee procedures and timelines.
